Problem-solving capability

Completed Nov 2023

About

Measures fluid intelligence, the ability to reason, adapt, and solve new problems independently of verbal skills, without relying on prior knowledge. Developed with a clinical psychologist, benchmarked against industry standards, and linked to real-world success.

Result

Solves practical problems using clear rules, tried methods, trial and error, and past knowledge, learning from mistakes to improve solutions.

Behavioural profile

Completed Nov 2023

About

Measures essential soft skills including grit, motivation, and a growth mindset. Developed with Oxford University and J-PAL. Results are validated against real hiring decisions, and indicate potential success in various roles.

Result

Scored highest on growth mindset. People with a growth mindset believe their skills and intelligence can be improved over time with effort and persistence.
